

## **2022 Award for Excellence** in environmental, health, safety and security

### **PPG** **Huron, Ohio**

The Huron, Ohio PPG Architectural Coatings location has three manufacturing facilities and a distribution center and each have dedicated Emergency Response Spill kits located in strategic areas around and inside the buildings. These spill kits have been maintained but are no longer in the best condition. The site's Emergency Response Team is in the process of overhauling the site's spill kits to be more sustainable, more weather resistant, and have the ability to last longer in the elements.
